BIO

William is an Ecological Land Steward, Designer and Perennial Based Farmer with over a decade of experience working in this field. Having studied under the brilliant minds and hearts of Ernst Gotsch, Richard Perkins and various other amazing teachers, he now co runs Conscious Landscape, a design practice empowering landowners to restore, regenerate, and manage land in a considered and ecological way. He also designs and manages farms in transition to farming with nature at its core, and helping new entrants to design and run farms of the future.

SCOPE

Partner at Conscious Landscape - a regenerative design practice based in the UK. We have completed a range of projects from whole system farm designs, farm and estate management, farm transition plans, estate management, keyline design, rewilding, homesteading, woodland management plans etc... We offer the full range of design, implementation and management.

APPROACH

- Nature centric approach to all aspects of design and management.
- Championing how humans can be incredibly beneficial to landscapes.
- Perennial based farming systems, approaching all aspects with longevity health and vigour in mind.
- Looking at timelines beyond our human perception.

INFO

Based in: United Kingdom

Worked in:

United Kingdom

Brazil

Ghana

Barbados

Languages:

English

Credentials:

Over a decade of on the ground experience in regenerative farming and ecological landscape design. In person Ernst Gotch Syntropic Farming Masterclass Richard Perkins Masterclass Experience in starting farms from scratch, budgeting, funding, building etc.
